Allowable Subject Matter

1. Claims 1-3, 5-18, 20-25, 27-30 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior arts Arai et al, Buxton et al, and Krivacic fails to teach an input system comprising: a first input device for specifying a position on a display screen, which is connected to a computer for executing an application program and for displaying a processing object area of the application program on the display screen, the first input device configured for being controlled by a user's dominant hand; a second input device differing from the first input device, the second input device configured for being controlled by a user's non-dominant hand, the first input device and second input device are simultaneously operable; an instruction set for instructing a change in a display state of the processing object area on the display screen while the application program is being executed by the first input device, in response to an operation of the second input device, wherein the instruction set instructs a change of a display size of an object contained within the processing object area displayed on the display screen in response to an operation of the second input device; wherein the instruction set includes an emulator generating an instruction signal compatible with the application program executed by the computer, and wherein the instruction signal is responsive to an operation of the second input device as claimed in Claim 1.

The closest prior art, Arai et al, Buxton et al, and Krivacic, either singularly or in combination, fail to anticipate or render the above bold and underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
